An underground gasoline depot near Kraljevo supplies fuel to the airfields at Kraljevo, Preljina (near Cacak), and Kragujevac. It is built into the slope of "Gemernica" hill which is located just north of the Kraljevo-Kragujevac railway line at a point five kilometers east of Kraljevo. The depot contains an unspecified number of concrete fuel tanks each of which has a capacity of 3,000,000 liters. All fuel tanks are reported to be full. The depot area is surrounded by a barbed wire fence two and one-half meters high, and the only objects visible above the surface are seven ventilator shafts of reinforced concrete. The area is guarded by seven guard posts, manned by members of 10 "Krajinska" Division which has its headquarters at Kragujevac. The 10 Division also guards the aircraft engine factory at Kraljevo and the Kraljevo airfield.
